

DARE TO DREAM & DARE TO HELP!

There are many ways we can join together to help our local communities, state, nation and world. Joseph has set up multiple opportunities to get involved no matter what you do or where you are in life. At the very least, we welcome your prayers and the spreading of the word. Listen to his music, read his books, join in the movie project, and pass it on! It helps more than you know. Tour merchandise is also available for purchase and we are creating more.

He works with non-profit organizations including churches. He also has ways for businesses to help out while getting their own services and/or products promoted as well. There is advertising available on the tour materials, websites, vehicles, as well as booths that are available in some venues.

Help out your fellow Americans and help yourself at the same time. IT'S THE AMERICAN DREAM!

We can and will change our country for the good of all. We may only be individuals but we can make a difference. In the words of Martin Luther King Jr. "I HAVE A DREAM!" He changed the world and generations and so can we! LET'S DO THIS!

USA DREAMERS INK LIFE FORCE

The USA DREAMERS INK LIFE FORCE was created and founded by Joseph to counter the suicide rates and depression in our country and beyond. He wrote and published the book, DREAMERS INK, in May 2019 while driving for Lyft in Colorado Springs. It is the FOUNDATION of the Life Force. He's talked to many who were on the edge of suicide and numerous others who had lost loved ones to suicide, so he decided to write the new book to promote HOPE, ENCOURAGEMENT & DREAMS. The book can be used for discussion groups as well as to encourage our families, friends, and others. It includes a STUDY GUIDE & DREAM CERTIFICATE to help those who are struggling with life. He shares this endeavor on stage and also in speaking venues as well.
